Podiatry

Evolve your practice with MediNotes e EHR for Podiatry.

Over 10 years ago, MediNotes entered the EHR market with PodNotes, a program designed specifically for Podiatrists. Since that time, we have revolutionized the program. Our EHR solution is now known as MediNotes e, and offers chief complaints, graphics and patient instructions all specific to Podiatry.

MediNotes e for Podiatry includes these (and many more) ready to use chief complaints for the following Podiatric exams:

- At risk foot care
- Footwear for Diabetics
- Abscess
- Achilles Tendonitis
- Bunion
- Bunionectomy Operative Reports
- Bursitis
- Capsulitis
- Corns and Callosities
- Diabetic Neuropathy
- Gout
- Hammertoes
- Heel pain
- Ingrown nail
- Joint Pain/Swelling/Stiffness
- Neuroma
- Onychomycosis
- PT Tendon Dysfunction
- Sesamoiditis
- Tinea Pedis
- Ulceration
- Verruca

evolve.
